Proposal for continuation of paid coverage benefits upon retirement by Nobles County elected officials.

Minnesota statute 471.61 provides that any county may insure or protect its retiring elected officials and their dependents under a policy or policies covering life, health, accident, mental and surgical benefits or hospitalization insurance.

I'd like to see Nobles County offer this benefit to their elected officials as a recognition of their dedicated service to Nobles County and its citizens. Per past practice, when leaving an elected position an elected official receives no continuation of benefits upon their retirement. In my research around the state I have found that there are counties that provide a continuation of benefits paid by the county. The benefits paid to elected county officials upon retirement vary throughout the state county by county ranging from 2 years paid benefits for every term served to 1 year paid benefits for every term served. Certain criteria must be met to be eligible for this benefit was consistent with the counties that I received information from.

Eligible elected officials would be designated as the County Attorney, County Auditor, County Recorder, County Sheriff and County Commissioners. To be eligible for the continuation of benefits after retirement the elected official must complete 3 terms. Upon retirement the elected official would receive 2 years of paid benefits for every term served.
