

MINNESOTA GOVERNMENT DATA PRACTICES ACT

2022 NOBLES COUNTY ATTORNEY INVENTORY OF NOT PUBLIC DATA ON INDIVIDUALS

Minnesota Statutes Section 13.393 provides that:

Notwithstanding the provisions of this chapter and section 15.17 the use, collection, storage, and dissemination of data by an attorney acting in a professional capacity for a government entity shall be governed by statutes, rules, and professional standards concerning discovery, production of documents, introduction of evidence, and professional responsibility; provided that this section shall not be construed to affect the applicability of any statute, other than this chapter and section 15.17, which specifically requires or prohibits disclosure of specific information by the attorney, nor shall this section be construed to relieve any responsible authority, other than the attorney, from duties and responsibilities pursuant to this chapter and section 15.17.

Consistent with that statute, with *McDeld v. Minnesota Department of Human Services*, 207 WL 430312 (Minn App 2007) and with Department of Administration Opinions 95-045, 95-048 and 95-049, while some data in the Office of the Nobles County Attorney is subject to the Data Practices Act, other data are not. The table that follows reflects the fact that in addition to the listed statutory authority, some data may be made not public due to standards of professional conduct including, but not limited to attorney-client privilege and attorney work product.

Data is often classified as confidential data on individuals if criminal, civil, or administrative investigation or litigation is pending or in progress. Upon completion of the process, classification then may change to public or private, unless the data retains its confidential classification under provisions of law. As noted above, however, that process may intersect with work product or attorney-client privilege classifications.
